

Residential Grid-Connected Solar Energy Packages – Single Phase

Green Energy for your house or villa (or office or shop or factory)! Complete system packages based on world-leading German Grid Inverters (10 year warranty) and UL and TUV Certified Solar Modules, rated for tropical temperatures. These systems reduce your PLN usage and bills and contribute to saving the climate!

All packages are complete with:

- High-Quality German SMA Grid Inverter with 10 year Warranty
- Certified CEEG Solar Photovoltaic Modules with 25 Year Performance Warranty
- Sundaya Aluminum Roof Mounting Rack
- High-Quality Cables, Conduits (up to 30 meters)
- Installation Materials (ABB Brand)
- Installation to EU Solar Installation Code, including lightning protection and surge protection, with 10 year Warranty
- Testing and Commissioning with Report and Certifications
- As-Build Drawings, Owner's Manual Book, User Training

CE-1100 Package – up to 6 kWh per day¹.

US\$ 9,900

SMA Sunny Boy SB1100 Grid Inverter

960 WattPeak Solar Array of 6 modules CEEG 160Wp modules

CE-1700 Package – up to 9.6 kWh per day.

US\$ 14,900

SMA Sunny Boy SB1700 Grid Inverter

1600 Watt Solar Array of 10 CEEG 160Wp modules

CE-3000TL Package – up to 17.3 kWh per day

US\$ 27,900

SMA Sunny Boy SB3000 Transformerless Grid Inverter

2880 Watt Solar Array of 18 CEEG 160Wp modules

CE-5000TL Package – up to 30.7 kWh per day

US\$ 34,900

SMA Sunny Boy SB5000 Transformerless Grid Inverter

5120 Watt Solar Array of 32 CEEG 160Wp modules

¹ Depending on sun conditions.

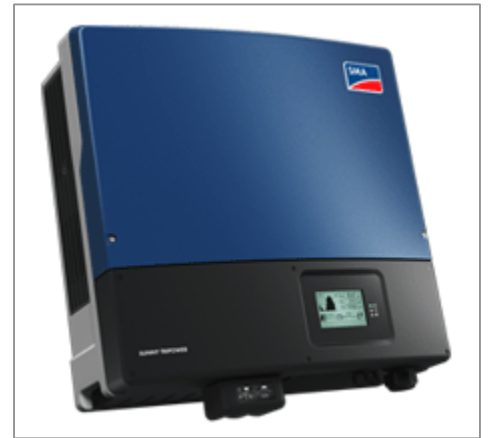

CE-1000TL Package – up to 61.4 kWh per day **US\$ 49,900**

SMA Mini Central SMC10000 Grid Inverter
10240 Watt Solar Array of 64 CEEG 160Wp modules

Residential/ Commercial Grid-Connected Solar Energy Packages – Three-Phase

These larger 3-phase systems are suitable for large residences, commercial buildings, hotels and go up to 17 kW per unit but can also easily be string-connected for even larger capacities.

CE-10000/3 Package – up to 60 kWh per day².
SMA TriPower 10000TL Transformerless Grid Inverter
9600 WattPeak Solar Array of 60 modules CEEG 160Wp modules

US\$ 54,900

CE-15000/3 Package – up to 86.4 kWh per day.
SMA TriPower 15000TL Transformerless Grid Inverter
14400 Watt Solar Array of 90 CEEG 160Wp modules

US\$ 79,900

CE-17000/3 Package – up to 101.7 kWh per day
SMA TriPower 17000TL Transformerless Grid Inverter
16960 Watt Solar Array of 106 CEEG 160Wp modules

US\$ 89,900

CE-30000/3 Package – up to 184.2 kWh per day
3 units SMA TriPower 10000TL Transformerless Grid Inverter
30720 Watt Solar Array of 192 CEEG 160Wp modules

US\$ 124,900

² Depending on sun conditions.

Options:

- Optional Sunny Beam Wireless Monitor with datalogging
- Optional Sunny Web Box internet monitoring
- Optional LED Matrix Large Display
- Solar Trackers for even higher production

Other system size and configurations available on request.

All SMA systems are infinitely expandable with:

- Multiple Solar Arrays
- Multiple Wind Power Sources
- Fuel Cells
- Generators
- Battery Banks
